## **Reasons for Allowance**

Claims 1-23 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites, a light source device used at the time of separating, into N color components, light which is irradiated toward an original and is one of transmitted through and reflected by the original, said light source device comprising:

a light source section formed from M light emitting elements having different emission spectrums, wherein  $M > N$ ; and

a controller controlling overall spectral characteristics of light emitted from the light source section by controlling at least one of lighting and extinguishing of each of the M light-emitting elements of the light source section, emission intensity of each of the M light-emitting elements of the light source section, and emission time of each of the M light-emitting elements of the light source section.

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
